## "ON TRIAL"

Coming to the Davis April 5th.

With a host of varied attractions to choose from during the current theatrical season, the Davis theatre announced "On Trial" the greatest success the stage has known for years. And the announcement that it is to be presented here at the Davis theatre, Broadway evening, April 5 has awakened more genuine enthusiasm than has been noticeable in many months.

A critical analysis of dramatic offerings would class "On Trial" as an unmitigated and unalloyed melodrama. It is the old triangle play involving the betrayed mistress, the rustling husband and the betrayer; but so novel is the treatment of the subject matter said to be that it will not be recognized in its new dress.

It is the decidedly unusual departure from the regular course of dramatic portrayals in "On Trial" that breaks down the theatre's average authority that this time worn triangle is no longer eligible as a dramatic motive.

Critics and a discriminating public have agreed that viewed alone from its novel aspect, "On Trial" reveals a subtlety on the part of its author that is appreciated more and more as the denouement is arrived at.

As the title indicates the scene of "On Trial" is laid in a court room. Not the regular rustic setting which is usually something of a farce, but a court room scene well carried out to the smallest detail.

Not to the reader the dramatic effect of this nucleus play cannot be described. It has to be seen to be fully appreciated. The production here will be as good and in every respect better than the New York production and the stage effect and scene transformation are done in shorter time than the New York show. A big cast of twenty-two actors and actresses will be on hand to make record time on all the changes.

Seats on sale Friday at 10 a. m. Mail orders with remittance filled in the order of receipt.

# What Thin Folks Should Do To Gain Weight

## Physician's Advice For Thin, Underdeveloped Men and Women

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who have tried and failed to gain weight by eating more food, taking food-puffs, physical culture, stimulants and rubrics. They resign themselves to lifelong skinniness and think nothing will make them fat. Yet their thinness is not hopeless. A recently discovered regenerative force makes fat grow after years of thinness and is also unequalled for restoring the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Six strength-giving, fat-producing elements of acknowledged merit have been combined in this peerless preparation, which is endorsed by eminent physicians and used by prominent people everywhere. It is also harmless, inexpensive and reliable.

A month's systematic use of Sargol should produce flesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained from the food eaten, and the digestive organs are benefited. People are provided. Lee & Osgood and other leading druggists supply Sargol and the booklet "How to Gain Weight" for \$2.00. While this new preparation has given thousands of people a new life, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh.
